

Leadership Development Committee CALL FOR SPONSORS

Member assistance is requested to help defray the cost of Leadership Development Committee events.

The Indiana Construction Association (ICA) established the Leadership Development Committee (LDC) in order to provide early- and mid-career professionals in the Indiana construction industry with opportunities to develop leadership skills, broaden their professional knowledge and share ideas with their peers. It is important to the success of our industry that these future leaders be exposed to the issues our industry faces today in order to help them prepare to deal with the issues of tomorrow. Individuals must be appointed for membership in the group by an officer of their company. The meetings are informal and typically include guest speakers, tours, site visits and always provide time for post-event networking.

Please indicate below the level at which you would like to sponsor:

The LDC will accept four corporate sponsors per year on a first-come, first-served basis.
