LDC Participants Tour the JW Marriott Jobsite

Thirty-six members of the Leadership Development Committee (LDC) Central gathered at the JW Marriott construction project in downtown Indianapolis on October 15. Participants were taken on a guided tour by representatives of Hunt Construction Group, where they were able to view the structure and learn how this major project is being coordinated.

Following the tour, participants had an opportunity to network with colleagues while enjoying food and beverages provided by the event sponsors, **Barth Electric Company, Inc.** and **Tyson Corporation**. As a corporate sponsor, **Midwest Mole, Inc.** helps to underwrite all LDC 2009 events.

The LDC Central's November event will be a presentation entitled "Project Rescue: How Bonded Jobs Get Finished After Default" on November 12.
