

INDOT Standards for Erosion and Sediment Control

Below is a list of appropriate INDOT Standards that reference the contractor responsibilities regarding meeting Indiana Administrative Code (IAC) Rule 5 Erosion and Sediment Control requirements (327 IAC 15-5.) These apply to all projects where earth disturbance occurs, and especially projects that have a Rule 5 Notice of Intent (NOI) for Erosion and Sediment Control on active construction projects disturbing more than 1 acre of soil within the right of way. Disturbed areas outside the right of way shall be subject to Standard Specification 203.08 and Reoccurring Special Provision 203-R-550.

Expectation	Standard Specifications 2010		Reoccurring Sp. Provision 2009
	Section	Start @ Line	
<i>Erosion Control Supervisor</i>	108.04 205.03	115 – 126 25-36	108-C-192
<i>Updating the E&SC Plan</i>	108.04	107-153	108-C-192
<i>Weekly inspection Report</i>	108.04 205.04	120-122 120-124	108-C-192
<i>Maintenance</i>	205.04 203.09	119-127 257-260	108-C-192
